The Challenge

- Modernize elevator equipment originally installed at the turn of the century
- Ensured the new parts and equipment met the building's operational and aesthetic needs

- Work in an occupied upscale building without disrupting tenants
- Modernize without compromising the old world charm of the elevator
- Commit to services that enhance the life of the residents

The Solution

- Coordinating the various trades required to design and install new state of the art equipment that impacts the building on many levels beyond the elevator equipment including: electrical, HVAC, and general construction to meet today's state code requirements

The Benefit

- The state of the art elevator equipment and building systems, including life safety and security features, stay hidden behind the new interior design of the renovated cab interior and elevator lobby so residents are safe, secure, and happy

"Selecting Stanley Elevator has proven to be a great move! I can not thank you enough and I look forward to working with you in the future."
