## MacMulkin Chevrolet

The innovative architect behind MacMulkin Chevrolet's new state of the art auto dealership in Nashua, New Hampshire, designed a unique second floor showroom. Stanley Elevator Company was brought in to ensure the vehicles could make it up to that second floor.

### The Challenge

- Architect designs unique second floor showroom and requires elevators to move automobiles and customers

### The Solution

- Install 6000 lb capacity automobile elevator with adjoining passenger elevator
- Locate freight elevator strategically in the building to maximize efficiency while handling inventory

### The Benefit

- Dealer is able to rotate inventory around the building which results in enhanced presentation and atmosphere for customers
- Reduced costs for moving, storing, and handling materials and cars
- Both passengers and freight are moved efficiently and safely from floor to floor.

## Commercial Property
